Three primary colors

OK Go

Chorus:

Oh, there are three primary colors,  
 Only three are primary as truth  
 The world is full of every kind of color,  
 But we're just talking red, yellow and blue.

Yellow and red make orange (orange) x 2  
 Yellow and blue make green (green) x 2  
 blue and red make purple (purple) x 2  
 And there's a lot of colors to be seen.

Red x 2  
 Yellow x 2  
 Blue x 2

There are three primary colors  
 And a lot of colors are there too,  
 When you see another other color  
 It's made up of red, yellow and blue.

Oh, these three as primary as true.

Yellow and red make what?  
 Yellow and red make orange (orange), that's right!  
 Yellow and blue make what?  
 Yellow and blue make green, yeah!  
 blue and red make what?  
 blue and red make purple (purple), yeah!  
 And there's a lot of colors to be seen.

Oh, there are three primary colors,  
 Only three are primary as truth  
 But If you mix the primaries together  
 Brand new colors come right into view
